

## Viewing Activities

### VIDEO CHAPTER

# 6

# Mexico

**Directions:** As you view Chapter 6 of the video, answer the following questions.

### Section 1: Mexico City

1. What evidence does the video use to support the claim that Mexico City is one of the most populous cities in the world?

---

---

2. How does physical geography contribute to the pollution in Mexico City?

---

---

3. Why, despite pollution and overcrowding, do people still migrate into Mexico City?

---

---

### Section 2: Agua Azul

4. What can you infer about the topography of Mexico from the description of the Aqua Azul River?

---

---

### Section 3: Hills of Michoacán

5. What unsolved mystery surrounds the monarch butterflies that migrate to the hills of Michoacán each winter?

---

---

Take a virtual tour of Mexico City by visiting <http://www.mexicocity.com.mx/mexcity.html> (The site can be accessed in both English and Spanish.) Record your observations in the form of a travel diary. You might send one of the site's postcards to a classmate, telling him or her what you have seen.
